4.5 x 11 Black & White Printed Flyers
Print Setup Guidelines

Final Size
5.5 x 8.5 inches

Bleed Area
Extend background to fill this entire area. Also, flow graphic elements into this area if they should reach the edge of the page. This ensures that after trimming, background and graphics completely fill to the edge of your finished piece without any white edges.

Trim Line
Elements positioned beyond this line will be trimmed off.

Safe Area
Position important text and images **inside Safe Area** to prevent trimming.

We prefer to receive your final design as a PDF. While exporting to PDF, save with **Press Quality (300 dpi)** settings to **include crop marks** and **include bleeds**.
